EIGENRAC

FOREWORD

Eigenrac enables our clients to operate in demanding environments by supporting their strategic goals within the security risk management space. By understanding the intended end state, we aim to become the partner of choice, ensuring that our clients' strategic goals are met through considered planning and effective execution.

Through privileged access to relationships across the political, social, and economic spectrum in the MEA & Asia region, Eigenrac is uniquely positioned to provide advice and support to our clients. Our long-standing relationships give us a deep understanding of the environments our clients intend to operate in. This enables us to offer intelligence-led solutions that facilitate their business needs.

By leveraging tested local-national delivery partners with expatriate management oversight, we provide our clients with the foundations for success, ensuring they gain a competitive advantage in challenging markets. We do this by drawing on decades of experience in designing and delivering holistic, end-to-end security risk management solutions tailored specifically to our clients' requirements.

Our clients demand internationally recognized best practices, delivered at competitive rates. Our value lies in our people, our experience, and our ability to deliver first-class, world-leading services on time and within budget.

ADVISE

INTELLIGENCE MANAGEMENT SERVICES (IMS)

We provide cost-effective and measurable Intelligence Management Solutions that not only reduce risks to your assets and reputation, but also offer a competitive advantage by enhancing business resilience. This ensures you can respond quickly and effectively to incidents and events as they unfold.

We work with you to identify your unique intelligence requirements. Then, utilizing our extensive network of sources and analysts, we produce focused intelligence products that enable you to create a comprehensive risk and security framework based on information relevant to your project or business operations.

Our proactive approach ensures intelligence is embedded at the core of your security strategy, allowing you to mitigate risks wherever practically possible, ultimately reducing the long-term costs of business operations in challenging environments.

Strategic Partner

TRAVEL TRACKING. MASS COMMUNICATIONS. INCIDENT SPOT REPORTING. TRAVEL MANAGEMENT. GEO-FENCING.

EIGENRAC HELPS CLIENTS UNDERSTAND THE SOCIAL AND GEOPOLITICAL THREATS THEY FACE BY UTILIZING THE INTELLIGENCE MANAGEMENT PROCESS. THIS CAN MAKE A SIGNIFICANT DIFFERENCE IN AVOIDING PHYSICAL, FINANCIAL, AND REPUTATIONAL LOSSES OR ACHIEVING STRATEGIC GOALS—UNDERPINNING SUCCESS.

PROTECT

SPECIALIZED PROTECTIVE SECURITY SERVICES (SPSS)

We provide world-leading executive protection, security escorting, and guarding services to a wide-ranging client base of multinational organizations and NGOs, as well as corporates across various sectors. These include energy, extractives, manufacturing, transport, and logistics. All our security professionals are trained by expatriate former military and police personnel. We ensure that best practices are met at all times, with a meticulous level of planning embedded into our security operations culture before executing any operations.

With nearly two decades of proven experience, we specialize in delivering protective services, including static and mobile security, executive protection, meet-and-greet services, in-country protective services, and training and development. We strictly meet all regulatory requirements and hold current licenses and associated permits. Additionally, we adhere to ethical employment practices in accordance with labor laws.

COMPLIANCE

- PRIVATE SECURITY COMPANY COMPLIANT
- ICOCA COMPLIANT

AS THE SECURITY LANDSCAPE EVOLVES, CLIENT REQUIREMENTS WILL SHIFT, AND FLEXIBLE, AGILE SERVICE PROVISION BECOMES ESSENTIAL TO MEET THEIR PROTECTION NEEDS.

SUSTAIN

RISK MANAGEMENT SERVICES (RMS)

With continued population growth comes an increased demand for raw materials, goods, and services. This demand, driven by the expansion of global trade, presents opportunities for investment in critical sectors such as power, communications, and transport.

While Critical National Infrastructure (CNI) programs often provide long-term revenue opportunities, they also present significant safety and security challenges due to the various threats present in these environments. It is vital that these risks are understood and managed according to the scale and importance of each program.

Through proven expertise and experience across a wide range of sectors, Eigenrac's Risk Management Services help our clients' CNI programs achieve their goals without compromising the safety of their people or the security of their assets—**underpinning success.**

EIGENRAC HELPS CLIENTS UNDERSTAND THE RISKS THEY FACE AND OFFERS PRACTICAL, COST-EFFECTIVE SOLUTIONS TO MITIGATE THOSE RISKS, ENSURING BUSINESS OPERATIONS RUN SMOOTHLY IN COMPLEX ENVIRONMENTS.

DEVELOP

CAPACITY BUILDING SERVICES (CBS)

Eigenrac aims to be the partner of choice for the successful delivery of commercially viable capacity and capability-building programs, including specialized training for Governments, Corporates, and NGOs.

We champion local talent to deliver sustainable solutions that are enduring and cost-effective. By doing so, we help build a legacy that enhances our clients' capabilities, ensuring they can execute their strategy and achieve both short-term and long-term goals.

Our capability is supported by our broad reach across sectors and geographies. Our programs are delivered with the skills and robust project management of highly experienced and credible trainers and mentors, ensuring we exceed our customers' expectations—**underpinning success.**

THE IMPORTANCE OF CAPABILITY DEVELOPMENT PROGRAMS FOR SECURITY AGENCIES, CORPORATE ENTITIES AND NGO'S IS FOREFRONT IN THE MINDS OF GOVERNMENTS AND FOREIGN INVESTORS IN THE CURRENT CLIMATE OF EXTENDED CONFLICTS AND UNRELENTING TERRORIST ATTACKS.

OUR PAST PERFORMANCE

Eigenrac has a strong track record of delivering cost-effective, diverse, and risk-based solutions in complex, post-conflict environments, as well as in both mature and developing countries. Our services include mobile and static security, capacity building, logistical support, procurement, life support services, corporate investigations, financial due diligence, risk consultancy, security master planning, crisis consulting and evacuations, and strategic liaison functions.

Our expertise, combined with our ability to competitively price our services, makes us the ideal partner to help you achieve your strategic goals.
